

YASIR BASHEER

Senior Project Manager | CRO & AI-Driven Delivery

Lahore, Pakistan • +92 318 8201038 • yasirmughal668@gmail.com • linkedin.com/in/yasirbasheer

EXECUTIVE SUMMARY

Senior Technical Project Manager with 4+ years leading cross-functional e-commerce, SaaS, and AI/ML delivery teams. Direct, hands-on Conversion Rate Optimization (CRO) ownership for consumer subscription brands – EM Cosmetics, NUorganics, and Kava by Mitra – spanning Shopify theme optimization, A/B testing pipelines, and full brand build-out from concept through launch. Combines agency-style client partnership with genuine technical fluency: architects AI-driven QA and workflow automation to speed up conversion-issue identification, shorten the fix pipeline, and reduce operational overhead. Proven track record owning client relationships end-to-end, leading multidisciplinary pods (PM, engineering, design), and translating data-driven hypotheses into measurable revenue outcomes.

KEY BRAND & PRODUCT ENGAGEMENTS

Kava by Mitra – Brand Build Partner, from concept to launch

Site: <https://kava-drink.co/>

- Built the Kava by Mitra e-commerce brand from the ground up in direct partnership with Mitra – owning the Shopify storefront build, launch strategy, and operational foundation as a hands-on brand-build partner rather than a delivery-only PM.

EM Cosmetics – Conversion Rate Optimization (via Tru Sport Brands)

Site: <https://www.emcosmetics.com/>

- Owned CRO strategy and execution on the Shopify storefront – introducing a structured process to identify conversion issues faster and shorten the pipeline from insight to shipped fix.

NUorganics – Conversion Rate Optimization (via Tru Sport Brands)

Site: <https://nuorganic.com/>

- Same CRO ownership model as EM Cosmetics – data-driven testing prioritization and rapid iteration on the conversion funnel.

ProspectIQ – AI-Powered B2B Lead Intelligence Platform (Independent Build, 2026)

- Architected and built an end-to-end AI-driven lead discovery and qualification platform – integrating LLM-based data extraction, automated opportunity scoring, and AI-assisted outreach generation.
- Implemented schema-enforced AI output validation and self-healing pipeline monitoring, directly reducing manual QA overhead and operational cost – the same AI-for-QA-and-cost-reduction approach applied to agency delivery pipelines.
- Hands-on technical execution (full-stack development, API integration, multi-provider AI orchestration) demonstrating the ability to go beyond scoping and into the technical language of the build.

CORE COMPETENCIES

- **E-commerce & CRO:** Shopify Theme Optimization, A/B Testing & Experimentation, Conversion Rate Optimization, Subscription CPG, Landing Page Strategy, Brand Launch & Growth
- **Project & Team Leadership:** Agile, Scrum, Kanban, Sprint Planning, Cross-Functional Pod Leadership, Client Relationship Ownership, Vendor Management
- **AI & Automation:** LangChain, Prompt Engineering, AI Workflow Automation, Automated QA Pipelines, NLP, LLM Integration
- **Technical Fluency:** Python, Django, Django REST Framework, JavaScript, RESTful APIs, AWS, GCP, Microservices
- **Tools:** Jira, ClickUp, Notion, GitHub, Slack, Google Workspace, Postman, Hubstaff

PROFESSIONAL EXPERIENCE

Project Manager — Tru Sport Brands *Jan 2024 – Present*

- **Conversion Rate Optimization:** Owned end-to-end CRO for EM Cosmetics and NUorganics — introducing structured processes to accelerate conversion-issue identification, prioritize the testing backlog, and streamline the pipeline from insight to shipped fix.
- **AI-Driven Process Transformation:** Designed and deployed custom AI documentation pipelines using LangChain and LLMs, cutting administrative overhead and sprint planning effort by 40%.
- **Team Scaling & Velocity:** Built, structured, and onboarded a high-performing full-stack engineering team from scratch, improving delivery bandwidth and reducing time-to-market by 30%.
- **Rapid MVP Execution:** Architected and delivered a multi-tiered MVP from concept to production release in 1.5 months against an initial 8-month traditional timeline.
- **Cross-Functional Execution:** Spearheaded end-to-end technical project execution across scalable e-commerce infrastructure, backend service integrations, and operational workflows, coordinating 15+ engineers, UI/UX designers, and business stakeholders.

Project Manager — TSK Services LLC *Mar 2023 – Dec 2023*

- **AI Workflow Automation:** Architected and deployed AI-powered operational workflows using LangChain and GPT models to automate backlog grooming, technical documentation, and sprint status reporting, reducing administrative overhead by 40%.
- **Requirements Engineering:** Translated strategic brand goals, market analytics, and direct customer feedback into actionable engineering user stories, API contracts, and technical specifications for seamless sprint execution.
- **Mid-Funnel & SEO Optimization:** Directed engineering execution for mid-funnel web application modules, collaborating with growth marketing to enhance SEO architecture, site performance, and acquisition metrics.
- **Metrics & Visibility:** Established centralized Jira/ClickUp reporting structures to track burndown charts, lead/cycle times, and key performance metrics for executive leadership.

Project Manager — Antity *Jan 2020 – Mar 2023*

- **Engineering Team Building:** Led recruitment, technical onboarding, and mentoring of an in-house software engineering team, eliminating external offshore dependencies and accelerating delivery cycles by 30%.
- **Scope & Requirement Standardization:** Standardized a comprehensive requirement-gathering framework incorporating wireframing and user journey mapping, decreasing scope ambiguity and reducing post-sprint rework by 25%.
- **Vendor & Client Management:** Supervised multi-disciplinary outsourced vendor teams on client web applications, holding weekly budget and milestone reviews to ensure strict compliance with growth objectives.
- **Strategic Business Alignment:** Acted as the core interface between C-suite stakeholders and technical dev teams, resolving execution bottlenecks and facilitating cross-departmental alignment.

CONTRACT PROJECTS & SPECIALIZED EXPERIENCE

Project Manager & Tech Lead — INFRA *Jun 2020 – Dec 2021*

- **Full-Lifecycle Startup Delivery:** Managed project scope, timelines, and technical deliverables for multiple service-based early-stage startup products from inception through deployment, achieving a 100% on-time milestone success rate.
- **Financial & Budget Governance:** Oversaw project operational budgets, resource allocations, and vendor invoices; maintained project financial variance consistently under 5%.
- **Agile & DevOps Orchestration:** Led the company-wide transition from waterfall to Agile/Scrum; partnered with DevOps teams to integrate automated CI/CD pipelines and improve operational readiness.

Associate Product Manager — Eyeora VR *Jan 2020 – Jun 2021*

- **Accelerated MVP Launch:** Partnered closely with founding stakeholders from initial product ideation through full deployment; recruited and managed a cross-functional team of 8 engineers and UI/UX designers.
- **Compressed Timeline Execution:** Spearheaded rapid sprint iterations that successfully launched a production-ready MVP in 1.5 months against an initial 8-month projected roadmap.

- **Product Roadmap Execution:** Supported the Product Director in defining feature backlogs and roadmap execution for an enterprise VR platform.

EDUCATION & PROFESSIONAL CREDENTIALS

Bachelor of Science in Software Engineering — COMSATS University, Lahore

Majors: Web Development, Data Science, Software Development Life Cycle (SDLC)

- Certified Scrum Master Practices (LinkedIn)
- AWS for Developers (LinkedIn Learning)
- Agile Project Governance Frameworks
